We work with others to protect the health of the people of Washington State by ensuring safe and reliable drinking water.

AWIA UPDATE
Office of Drinking Water

Presenter

Brian A. Sayrs
Planning Policy Lead
Office of Drinking Water

Agenda

- Quick reminders
 - Emergency preparedness
 - Consumer confidence reports
 - UCMR 5
- Offer of assistance

WA State DOH | 3

Emergency preparedness

- The risk and resilience assessments requirement is to make two certifications
 - Completion of risk and resilience (R&R) assessment
 - Completion of Emergency Response Plan (ERP)

Certify...	Community Water System population (including consecutive population)		
	≥ 100,000	50,000 – 99,999	3,301 – 49,999
R&R Assessment	March 31, 2020	December 31, 2020	June 30, 2021
ERP	Six months after <i>Risk & Resilience Assessment</i> certification		

- Do not send the documents to EPA
- Do not send DOH your risk and resilience assessment

WA State DOH | 4

Consumer confidence reports

- Changes to
 - **Delivery** (electronic delivery authorized)
 - **Frequency** (Community systems with 10,000 or more people report twice a year)
 - **Language** (EPA will provide new language)
- However
 - Only the delivery method change is in effect
 - EPA was given until October 2020 for its rule, but there is no indication of movement, yet

WA State DOH | 5

UCMR 5

- Altered water system participation
 - All systems with population 3,300 and greater
 - Representative sample of smaller systems
 - But...will there be appropriations?
- Timeline
 - Notice of proposed rulemaking June 2020
 - Rule to be final by December 2021

WA State DOH | 6

How can we help you?
